

# Goose Watch Winery

## Viognier

This low-yielding, tiny clustered vinifera grape is native to the French Rhone, and it makes the best and most expensive white wines there. It is also one of the hottest white wines in California today. This wine is dry, with great tropical fruit aromas and a bit more body than most Rieslings. A real bargain compared to Rhone and California versions.

**Gold Medal Winner!**

Dry    Semi-Dry    Semi-Sweet    Sweet
